Accountability

- UNHCR Tartous Field-Office has sufficient support in the field of shelter and infrastructure thus better able to meet the needs of persons of concern.

Duties and Responsibilities:

- Participate in shelter needs assessment missions to shelter and infrastructure projects' fields/sites. Provide detailed technical input required for shelter, physical planning and infrastructure projects' plans, with due consideration to environmental concerns, local context, UNHCR operation and capacity of implementing partners.
- Work closely with UNHCR's Shelter IPs in the design, planning and formulation of all technical activities (according to UNHCR, Sphere, and National Standards) considering UNHCR's protection mandate and policy priorities to ensure a cost-effective, technologically sound and socially appropriate approach. In case of direct implementation by UNHCR, assist in planning and supervising project activities undertaken by UNHCR.
- Assist UNHCR's Shelter IPs in technical preparation, technical revision and technical evaluation of detailed shelter and infrastructure rehabilitation projects, including repair of damaged houses, shelter packages, access road works, WASH facilities, schools, health units, bakeries, civil affairs and other public buildings by revising technical specifications, BOQs, cost estimations and tender documents.
- Provide regular technical monitoring, guidance and supervision in shelter, construction, and infrastructure projects. This includes making recommendations to enhance work progress, time schedules, procurement of the required shelter materials to ensure timely implementation.
- Work closely with UNHCR Programme, Protection, Supply and Field Units and assist in all technical queries (project-plans, BOQ, cost estimations, tender process, technical assessment) for programme clearance and technical evaluation.
- Work closely with Inter Agency Coordination Officers to assist updating preparedness and emergency plans and make sure contingency-stock of items/materials for emergency shelter response are in place.
- Work closely with PI officers to assist finalizing the technical factsheet for PI purpose and contribute to reporting to donors regarding post-monitoring visits, technical results and identified gaps.
- Liaise and coordinate with stakeholders of shelter and infrastructure projects and provide regular technical reports to the supervisor and to other colleagues as appropriate.
- Assist in Shelter Sector Coordination works and follow ups if needed or requested.
- Perform any other relevant duties as required.

Authority

- Liaise with local authorities, NGOs and IPs on shelter and infrastructure projects.
- Provide technical support and advice on shelter related activities.
